
HILUX

CUSTOM BUILDS

**BUILT TOUGH. STYLED SMART.
READY FOR ANYTHING.**

BUILT TOUGH. STYLED SMART. READY FOR ANYTHING.

The Hilux Custom Builds range is the ultimate partner for your business, combining Toyota’s engineering excellence with real-world practicality. Choose from nine factory-approved configurations, including dropsides, cargo rails, canopies, and dryboxes. Each conversion is purpose-built to enhance your Hilux’s capability, durability, and efficiency. For every plan, there’s a Hilux that can.

Every conversion is designed and tested by Toyota from the ground up to ensure seamless integration and uncompromising performance. Rigorously tested to original equipment standards, these Custom Builds embody Toyota’s commitment to Quality, Durability and Reliability (QDR).

With seamless factory ordering and delivery, your Hilux arrives work-ready, fully backed by a 3-year/100 000 km warranty, and with an enhanced resale value that keeps your investment strong for years to come.

HILUX CUSTOM BUILDS ARE MODULAR ADD-ONS, WHERE QUALITY, DURABILITY AND RELIABILITY (QDR) MEET REAL-WORLD CAPABILITIES. CHOOSE FROM NINE CUSTOM BUILDS, FROM DROPSIDES AND VERSATILE CARGO RAILS, TO SECURE CANOPIES AND WEATHERPROOF DRYBOXES. EVERY CUSTOM BUILD IS CRAFTED FOR STRENGTH, EFFICIENCY AND A SEAMLESS FIT THAT IS BACKED BY A COMPREHENSIVE 3-YEAR/100 000 KM WARRANTY.

The below advises the maximum payload on the specified Hilux models when fitted with a conversion. Please note that the fulfilment of the base vehicle and conversion warranty (3 years/100 000km) may be affected if the maximum payload is exceeded.

Conversion	Maximum Payload Capacity	
	2.4 GD A/C 5MT Flatdeck (A9W)	2.4 GD-6 4x4 5MT Flatdeck (A9Z)
Flat Deck Only	1,131kg	911kg
Steel Dropside	1,015kg	795kg
Aluminium Dropside	1,077kg	N/A
Cargo Rails with Steel Dropside	957kg	737kg
Cargo Rails Only	1,062kg	N/A
Dry Box	968kg	N/A
Full Canopy with Dropside	915kg	N/A
Fleet Technician Canopy Only	1,001kg	N/A
Fleet Technician Canopy + Steel Half Dropside	959kg	739kg
Field Technician Canopy with Half Dropside and lid	944kg	724kg

STEEL DROPSIDE STRENGTH YOU CAN COUNT ON.

Engineered from Toyota-grade steel, the Steel Dropside delivers exceptional load-carrying capacity with a three-way access system and a flat deck for maximum efficiency. Its electrodeposition (ED) coating provides corrosion resistance, ensuring performance across all terrains.

Quick bolt-on installation, roll forming, and CNC fabrication guarantee long-term reliability and fitment accuracy. A standard header board is included, and a mesh guard accessory can be added for additional safety.

Available in:

- 2.4 GD A/C 5MT (Maximum Payload Capacity: 1,015kg)
- 2.4 GD-6 4x4 6MT (Maximum Payload Capacity: 795kg)

ALUMINIUM DROPSIDE LIGHTWEIGHT MEETS LONG-LASTING.

Built from high-strength Toyota-grade aluminium, the Aluminium Dropside reduces weight without compromising on strength. Its anodised finish provides resistance to wear and corrosion, perfect for operators focused on fuel efficiency.

The three-way dropside system and header board allow easy loading from any angle, while the slip-resistant deck and corrosion-resistant lock ensure safe, smooth operation every time.

Available in:

- 2.4 GD A/C 5MT (Maximum Payload Capacity: 1,077kg)

MODEL SHOWN: 2.4 GD A/C 5MT

CARGO RAILS WITH OPTIONAL DROPSIDE ADAPTABLE. DURABLE. VERSATILE.

Combining the proven strength of steel with the practicality of cargo rails, and available with half- and full-gate setups, this configuration is ideal for versatile loading and for livestock transportation. Its 44mm tubular frame provides rigidity, while its electrocoating (E-coating) and powder coating offer corrosion protection.

The modular design supports a half-gate setup, and the bolt-on installation system allows quick assembly using basic tools while preventing accidental openings.

OPTIONAL CUSTOM BUILDS

- Cargo rails with optional dropside.
- Cargo rails without dropside.

Available in:

Cargo rails with steel dropside.

- 2.4 GD A/C 5MT (Maximum Payload Capacity: 957kg*)
- 2.4 GD-6 4x4 6MT (Maximum Payload Capacity: 737kg*)

Cargo rails only.

- 2.4 GD A/C 5MT (Maximum Payload Capacity: 1,062kg*)

* Custom Build type dependent.

FLEET TECHNICIAN CANOPIES PURPOSE-BUILT FOR PROFESSIONALS.

Built for industrial and field applications, the Fleet Technician Canopies feature welded aluminium bodies with lockable gullwing doors for secure and organised storage.

Each optional conversion includes four drawers, hidden compartments, partitioned sections, and false-bottom space for organised access. This conversion is fully adaptable and supports a range of operational setups such as roof rails, a standard water tank, and rear access.

OPTIONAL CUSTOM BUILDS

- **Fleet Technician, Canopy only**
(Maximum Payload Capacity: 1,001kg)
- **Fleet Technician, Canopy with Half Dropside**
(Maximum Payload Capacity: 959kg)
- **Fleet Technician, Canopy with Half Dropside & Lid**
(Maximum Payload Capacity: 944kg)

Available in:

- 2.4 GD A/C 5MT (Maximum Payload Capacity: 1,001kg*)
- 2.4 GD-6 4x4 5MT** (Maximum Payload Capacity: 739kg*)

* Custom Build type dependent.

** Canopy with half dropside and canopy with half dropside and lid only.

FULL CANOPY WITH DROPSIDES SECURITY MEETS UTILITY.

Combining the strength of stainless steel and mild steel with a lightweight welded aluminium canopy, this conversion delivers robust and lightweight cargo protection.

This conversion features five lockable gullwing doors (two per side, one rear) for easy access, and integrated roof rails offer extra storage. Designed to fit standard dropside systems, it ensures easy installation and reliable daily use.

Available in:

- 2.4 GD A/C 5MT (Maximum Payload Capacity: 915kg)

MODEL SHOWN: 2.4 GD A/C 5MT

DRY BOX STREAMLINED. SECURE. SMART.

Designed for enclosed, weatherproof cargo protection, this conversion features a lightweight fibreglass design that improves fuel efficiency without compromising on toughness.

Its lockable double rear doors and side latches provide secure yet convenient access for easy pallet loading, while the aerodynamic nose cone reduces drag to enhance on-road performance and economy.

Available in:

- 2.4 GD A/C 5MT (Maximum Payload Capacity: 968kg)

EVERY HILUX CUSTOM BUILDS
IS ENGINEERED WITH TOYOTA'S
UNCOMPROMISING QDR STANDARDS,
ENSURING LONG-LASTING
PERFORMANCE, SEAMLESS FITTINGS,
AND LONG-TERM RETURNS FOR YOUR
BUSINESS. FACTORY-FITTED, FULLY
WARRANTIED, AND READY TO WORK,
YOUR HILUX CAN NOW BE MORE
INNOVATIVE, STRONGER AND RELIABLE
TO GET THE JOB DONE.

TOYOTA FINANCIAL SERVICES

There is no 'one-size-fits-all' when it comes to vehicle finance and insurance, there is only you. With fast, flexible and convenient services we will structure the perfect Hilux deal for you.

At Toyota Financial Services, we believe that purchasing your Toyota should be as enjoyable as driving it. Toyota Financial Services is the fast, flexible and convenient means of financing your Hilux. We have created a range of finance products that suit both private and business customers, easily accessible through your local Toyota dealer. We take the hassle out of arranging finance.

Toyota Financial Services (South Africa) Ltd is an authorised Financial Services (FSP No. 7454) and Registered Credit Provider (NCRCP62).

Toyota vehicles are known for their Quality, Durability and Reliability. Keeping your Toyota Genuine means no compromises in terms of safety, performance and resale value. The range of Genuine Products and Approved Services will ensure complete peace of mind throughout the ownership journey and beyond. For more information on how to Keep Your Toyota Genuine visit www.toyota.co.za/owners/genuine-parts

TOYOTA GENUINE PRODUCTS

For guaranteed fit and function, **Genuine Parts** are essential in maintaining the safety and reliability of your vehicle. They also comply with all safety, regulatory and environmental requirements, making it the obvious choice. The same exacting precision applies to **Toyota Accessories**, developed by engineers with extensive knowledge on vehicle integration - you can enhance the appeal and functionality of your Hilux without compromising its safety features or warranty. Warranties are about peace of mind, and the **Genuine Unlimited Warranty** is designed to provide superior cover (up to 10 years, unlimited mileage) and a seamless claims process thanks to full integration with Toyota systems. The **Genuine Extended Service Plan** also enjoys exclusive approval by Toyota SA and provides flexible extension options up to 10 years or 300 000 km to suit your period of ownership. Paying today's rates for tomorrow's maintenance is a sensible way to protect the resale value of your Hilux by means of a full service history.

TOYOTA APPROVED SERVICES

Specialised vehicle maintenance requires first-class facilities, advanced equipment and expert knowledge. **Toyota Quality Service and Value Service** not only promise accurate diagnosis and repair, but also a philosophy of building trust through a genuine concern for the needs of our customers. To complement the extensive network of Toyota dealers, we have a vast number of **Accredited Body and Paint Repairers**, selected on stringent criteria to ensure outstanding workmanship and customer service. You can maintain your vehicle's pristine condition without compromising its warranty thanks to the exclusive use of Genuine Parts by our Accredited Repairers. Offering 24-hour access to a full complement of assistance and recovery benefits, **Toyota Roadside Assistance** provides the peace of mind that competent support is only a phone call away.

TOYOTA ENVIRONMENTAL CHALLENGE 2050

At Toyota, creating technologically advanced vehicles isn't our only priority; we're committed to lowering our environmental impact throughout our entire production process. How? By setting ourselves six challenges that will see us reach a truly world-changing goal: a positive environmental impact by 2050.

ZERO CO₂

CHALLENGE 1

NEW VEHICLE ZERO CO₂ EMISSIONS CHALLENGE

By owning a Toyota you would be contributing to the reduction of vehicle CO₂ emissions by 90% in 2050 as opposed to 2010. You will help us promote the development of next-generation vehicles and further accelerate the spread of these vehicles.

ZERO CO₂

CHALLENGE 3

PLANT ZERO CO₂ EMISSIONS CHALLENGE

You uphold the two main pillars of our strategy to achieve zero CO₂ emissions at our plants which are:

1. Developing and introducing low-CO₂ technologies with ongoing kaizen.
2. Adopting renewable energy sources and utilizing hydrogen energy.

CHALLENGE 5

CHALLENGE OF ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

You have contributed to our 40 years on the challenge of resource recycling. Going forward, by rolling out to the world the technology and systems evolved in Japan, we will all continue working on the challenge of establishing a recycling-based society.

The message is clear – Toyota Motor Corporation (TMC) wholeheartedly supports the Paris Agreement and accepts the challenge to achieve carbon neutrality by 2050. The Paris Agreement is a legally-binding international treaty on climate change and is aimed at reducing the emission of gases that contribute to global warming. While this treaty was only adopted in 2015, Toyota has been innovating and investing in technology to reduce emissions and achieve carbon neutrality for well over 30 years. Toyota has also led the way with more electrified vehicles on the road than any other automaker.

TOWARDS
CARBON
NEUTRAL

THE TOYOTA HILUX RANGE HAS BEEN MANUFACTURED TO MINIMISE ITS CARBON FOOTPRINT.

Guided by the goals of the Toyota Environmental Challenge 2050, as little impact as possible is made on the environment during each step of the process. From design to manufacturing, to end-of-life recycling programmes, our planet always comes first. This is because the ultimate long-term goal for Toyota is to make all our vehicles as environmentally friendly as possible. With this in mind, the entire Hilux range has been designed to have very low CO₂ emissions.

ZERO CO₂

CHALLENGE 2

LIFE CYCLE ZERO CO₂ EMISSIONS CHALLENGE

You are lending a helping hand to Toyota's efforts to reduce to zero not only CO₂ emissions produced in travelling and manufacturing, but all CO₂ emissions including the process of materials production, disposal and recycling of vehicles.

CHALLENGE 4

CHALLENGE OF MINIMISING AND OPTIMISING WATER USAGE

In automobile manufacturing, we use water in painting, forging and other processes. Therefore, even a small reduction of its impact on the water environments is important. We have two measures to achieve this, comprehensive reduction of the amount of water used and comprehensive purification of the water and returning it to the earth.

CHALLENGE 6

CHALLENGE OF ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

Here at Toyota we have engaged in planting trees at our plants and environmental conservation activities in our surrounding areas. To establish a society where humans and nature coexist in harmony, we are promoting several activities to connect regions, the world and the future.

TOYOTA IS SERIOUS ABOUT COMBATING THE PROBLEMS ASSOCIATED WITH WASTE TYRES IN THE COUNTRY AND HAS THEREFORE TAKEN UP ITS PRODUCER RESPONSIBILITY AS DEFINED BY THE WASTE MANAGEMENT ACT OF 2008. WASTE TYRE REGISTRATION NUMBER: TPREG0031GAU

IT'S NOT A BAKKIE IT'S A HILUX
